

gorillamobile™

for **3G/3GS**

The GorillaMobile for 3G/3GS extends the revolution around mobile device interactivity. Its flexible, wrappable legs enable the user to secure the GorillaMobile to virtually any surface, allowing limitless functionality and positioning capability for movie viewing, talking, video recording and photography. With four interchangeable quick-release adapters, including the addition of a custom-engineered, slimline iPhone case, the GorillaMobile for 3G/3GS supports an entire collection of mobile devices.

The GorillaMobile's award-winning ball-and-socket construction allows for fully articulated movement of the legs and neck. The genius of the GorillaMobile for 3G/3GS is in the iPhone case, which fulfills iPhone protection needs while also providing the perfect connection to the GorillaMobile's prehensile stand.

FEATURES

In addition to the flexible tripod and soft-touch iPhone case with adapter, the GorillaMobile for 3G/3GS package also includes two removable 3M high-bond residue-free adhesive clips and a universal camera adapter, ensuring compatibility with and easy switching between all handheld devices. Use it to position a mobile phone, mini video camera, GPS device, gaming unit, video or music player, pocket projector or digital camera for hands-free enjoyment.
