## Ori for iPad

**Inspired by the Japanese art of the fold**, Gorillamobile Ori for iPad 2 transforms effortlessly from a flat, lightweight protective case to an amazingly versatile iPad stand. Following months of research, Ori was designed to provide limitless ergonomic screen positioning and hands-free stability, without sacrificing the protection or portability of a sleek iPad case. Whether you're watching a movie on the plane, flipping through a portfolio presentation or typing an email at a café, you can position your iPad at the most comfortable height and viewing angle for you. For quick adjustments, simply tilt the screen or swivel the iPad from landscape to portrait display.

Engineered from a special aluminium composite used in high-performance cars, the Ori stand delivers rigid stability in a sculptural, lightweight form, so you can capture crisp photos, record video or enjoy a FaceTime chat from just the right vantage point. From corner to crease, Gorillamobile Ori has your iPad 2 covered for adaptable positioning anywhere.

### FEATURES

- **Adaptable display height for optimal ergonomics** – position your iPad screen for comfort, whether you're watching videos, reading, typing or chatting with a friend by FaceTime
- **Continuous hinge for adjustable viewing angle and diverse camera perspectives** – simply tilt the screen to maximise visibility or frame the perfect shot
- **Quick swivel to pivot orientation** – rotate seamlessly between landscape and portrait views
- **Super-strong Hylite® construction** – engineered from a high-performance aluminum and polypropylene composite for extreme durability and stability, while maintaining a thin and lightweight profile
- **Sleek protective folio case with microfibre screen cover** – magnetic sensor wakes and sleeps iPad automatically when cover is opened and closed
