

gorillamobile®

Yogi for iPad 2

Become a yoga master and stretch the limits of comfortable iPad positioning with the Gorillamobile Yogi. With limber yet sturdy legs, Yogi can twist and bend to stabilise your iPad on any uneven surface or wrap around fixtures – from your lap to your kitchen cabinets! Now you can cosy up on the couch with an iBook positioned at the perfect viewing angle or chop along with your favourite cooking show while your iPad is secured to the kitchen cabinet.

The flexible legs use the same patented technology as JOBY's best-selling Gorillapod camera tripods, and provide reliable support for capturing photos in dim light or recording steady video, at home or on-the-go. The modular clip design allows you to easily switch from portrait to landscape orientation, or remove the legs entirely to slip the lightweight case in your bag.

With all the amazing apps and ways to use your iPad, get creative and channel your inner Yogi ... namaste!

FEATURES

- **Flexible legs bend and curl into an infinite number of poses** – stabilise the iPad on your lap and any uneven surface, or hang from fixtures
- **Adjustable viewing angle and diverse camera perspectives** – position your iPad to frame the perfect shot when taking photos, shooting video or chatting on FaceTime
- **Modular clip design** – quick-release clip with removable legs secures to the case in portrait or landscape orientation. Legs can be stored separately to maximise case portability
- **Durable, lightweight case** – polycarbonate case with rubber bumper protects your iPad on the go
