

# gorillatorch **FLARE**™

The Gorillatorch Flare combines an intense 100 lumens of light with the same prehensile legs and magnetic feet as the original Gorillatorch. The Gorillatorch Flare will attach to just about anything, freeing up your hands for more important tasks. Built for convenience and ease of use, it's take-anywhere-portable, lightweight and runs on readily available AA batteries. Rubberised end caps make for easier handling and increased durability.

The Gorillatorch Flare also has extra features to help you out in those emergencies that sometimes happen outdoors or on the road - three bright red LEDs with strobe option for signalling. And so that it remains your loyal outdoor companion, the Gorillatorch Flare has passed the IP65 rating, meaning it is highly resistant to both dust and water. (The '6' refers to dust resistance level [best is 6], and the '5' refers to the water resistance level [best is 8].)

## FEATURES

- **Four powerful LEDs** - one ultra-bright 100-lumen white CREE LED and three red LEDs - with adjustable intensity and strobe features let you select the optimal beam for any situation. Choose between low, medium, high, or flashing white light, or between steady and flashing red light.
- **Flexible, wrappable legs** and magnetic feet allow you to attach the GorillaTorch Flare to anything; illuminate any target or send a powerful emergency signal while keeping your hands free.
- **Rubberized ring and foot grips** provide enhanced stability on slick or uneven surfaces and won't scratch paint.
- **Water resistant**, the GorillaTorch Flare shines in any environment.
- **Compact and lightweight**, the GorillaTorch Flare is a must-have for roadside assistance and emergencies. Its adaptable form factor enables you to stow it anywhere. Keep one in your car and one in your backpack.

## SPECIFICATIONS

<b>Size:</b>	206 x 128 x 70mm (8.11 x 5.04 x 2.76in.)
<b>Weight:</b>	180g (6.35oz)
<b>Brightness:</b>	100 lumens
<b>Bulb :</b>	Ultra-bright CREE LED, 3 red LEDs
<b>Batteries:</b>	3 AA (not included)

## AVERAGE BATTERY LIFE

	
Maximum power = 20 hrs	Emergency red = 60 hrs
	
Optimum = 50 hrs	Emergency strobe = 240 hrs
	
Economy = 80 hrs	
	
Strobe = 80 hrs
