4.3 Navi™ Sleeve

GPS protection with a minimalist design

The **4.3 Navi™ Sleeve** from Lowepro offers a simple, yet highly protective approach to protecting a GPS device. It's made of stretchy neoprene and reinforced inside both panels to provide extra protection from impact. Lowepro added a built-in microfibre cloth to protect and polish the delicate touchscreen, as well as soft, brushed tricot lining to safeguard the device from dust, scratches and abrasion. Dual, wrap-around zippers allow access to a GPS device from the top or bottom, plus make it easy to re-charge while it's in the sleeve. Designed with an ultra-compact profile, the **4.3 Navi Sleeve** neatly fits inside a glove compartment or centre console of a vehicle.

Features/benefits

Stretchy neoprene material with reinforced side panels	▶ Provides soft, cushioned and impact-resistant protection for a GPS device
Slim, minimalist design	▶ Neatly fits in a vehicle's glove compartment or console
Built-in microfibre cloth	▶ Cleans and protects the delicate touchscreen
Soft, brushed tricot lining	▶ Protects a GPS device and touchscreen from dust, scratches and abrasion
Dual-zipper pulls	▶ Offers ability to charge GPS device while in its case

About Lowepro

Lowepro founder Greg Lowe established the company's reputation for quality and innovative design in 1967 when he introduced the world's first internal-frame backpack. More than 40 years later, Lowepro continues to revolutionise the industry with pioneering design and superior quality with the most extensive line of protective carrying solutions for photographic and electronic equipment including products for cameras, camcorders, notebook computers, imaging accessories and portable consumer electronics.

Lowepro products are distributed in more than 100 countries through photo, outdoor, computer, consumer electronic, mail order and online resellers, in addition to OEM partnerships. Lowepro offices are located in the United States, Canada, the United Kingdom, Australia, Switzerland and Germany.
