Navi™ Traveler

The protective, all-in-one GPS travel kit

The **Navi™ Traveler** is designed to protect your valuable navigation gear from scratches, dust and abrasion, and sized to fit a GPS device and all its related accessories.

It features two easy-to-access zippered compartments. The padded upper compartment protects your GPS device and includes a built-in microfibre cloth to clean the delicate touchscreen. The thoughtfully organised lower compartment features two SD card slots on the lid and space to store a mount, charger, accessories and a manual. Customise the lower compartment with the removable/adjustable, padded divider and elastic strap – both include hook/loop fasteners to secure gear in place.

The **Navi Traveler** offers a wide and stable base, making it ideal to sit in a centre console or inside most glove compartments without slipping. A quick-grab handle offers an easy carrying option when you need to transport your GPS kit or transfer it to another vehicle. For extra convenience, when both compartments are open, you can charge the GPS device without removing it – or the charger.

The **Navi Traveler** is available in Black.
