Passport Sling™

Freedom for your every move.
 Protection for your DSLR. Lots of space
 for your personal gear.

Lowepro's **Passport Sling** is designed for today's photo enthusiasts who want to carry an equal amount of camera and personal gear as they sightsee, travel or go out for a walk with their DSLRs. Its unique and comfortable shape is unlike a traditional sling bag – it truly conforms to the body and easily moves with the wearer. Place it across the chest, high and close or low and loose, depending on the activity. The shoulder strap features a cam lock buckle that easily adjusts for an ideal fit, plus a removable, sliding shoulder pad that offers cushioned comfort when needed. On the exterior, two slash pockets and a water bottle pocket provide quick access to maps, guide books, boarding passes. Inside, the sling is equipped to protect your DSLR and a few accessories as well as offer plenty of space for personal items. Unzip the front of the **Passport Sling** to reveal an expansion compartment that adds approximately 30% more space – enough to accommodate items like a light jacket, lunch, cool souvenir or farmers' market find. A fully padded camera box (with built-in memory card pocket) protects a DSLR. Remove it and collapse the box when you want to pack the sling in a larger bag for travel.

The **Passport Sling** is available in Black, Mica and Blue.

About Lowepro

Lowepro founder Greg Lowe established the company's reputation for quality and innovative design in 1967 when he introduced the world's first internal-frame backpack. More than 40 years later, Lowepro continues to revolutionise the industry with pioneering designs and superior quality with the most extensive line of protective carrying solutions for photographic and electronic equipment including products for cameras, camcorders, notebook computers, imaging accessories and portable consumer electronics.

Lowepro products are distributed in more than 100 countries through photo, outdoor, computer, consumer electronic, mail order and online resellers, in addition to OEM partnerships, Lowepro offices are located in the United States, Canada, the United Kingdom, Australia, Switzerland and Germany.
